

2017 - 2019: DID ANYTHING CHANGE?

HOW TO READ:

On the left, an overview of all the animals used in each area of research and the across severity degrees serves as legend of shapes and colors for the rest of the graphic. The central graph illustrates the change in % (x) between 2017 and 2019, across species. Vertical shorter bars indicate average change per species. To the right, the overall changes across the years in the different severity degrees.

2017 - 2019
